

The tools and software you need before using our development board:

1. Vivado, PDF reader, WinRAR or equivalent.
2. Some other software need to be downloaded. Please contact us if any need. We will send you a package to download after ordering, it includes various software and source code root file system and so on.

Attention:

1. Please note that we use Vivado 2019.1 to build our tutorials. Unexpected issues may occur if you use another version. For those issues we may not provide technical support.
2. Please do not copy the codes in the PDFs, errors may occur.

### AX7203 Docs Catalogue

--- <a href="#">01_demo_document.zip</a> -----	demo document
--- <a href="#">02_学习教程之语言基础篇.rar</a> -----	Language Basics of the tutorial
--- <a href="#">03_学习教程之参考篇.rar</a> -----	Study the tutorial reference
